## The Right Expert Is Vital

Some tasks in life are best left to the professionals. Sure, you can search on your own for an expert to testify at trial...hit the Rolodex, blast a few emails, somebody will turn up. But to find the strongest possible expert—the best credentialed, the most persuasive, the one most likely to win over a judge or jury—doesn't it make sense to turn to professionals who do this all the time?

At IMS our job is to find our clients exactly the right expert witness; the knowledgeable, respected voice that can be the difference in their case.

We understand that every case is unique. We custom design each search to meet each client's specific needs. That is why we don't represent a pre-selected stable of expert witnesses or a registry or a database of self-designated professional experts.

Your case becomes our case. We invest the time to master the particulars so we will understand your expectations. Only those experts who have a command of their subject and the ability to communicate in court are brought to you, already vetted for conflicts, with a detailed dossier spelling out their credentials and our own candid assessment of their credibility.

IMS is the only firm specializing in locating the perfect expert witness. Our client list has grown since 1992 to include 97 of the AmLaw 100 and nearly half of the Fortune 100.

## We Stand Out From The Crowd

We locate the hard-to-find experts. We stand out because we combine the best executive search methods with legal expertise and experience. The result is an ideal solution for your needs and the needs of your client.

Our searches are proactive, sophisticated, and custom designed for every case. We know you don't need AN expert. You're looking for THE expert. We find that expert for you.

With IMS, your search for an expert witness is risk free.

Unless and until you engage the expert we locate for you, you will not be charged for our search or assessment services. When you engage our expert, our fees are covered in their hourly rate.
